

The Michigan Community Information Exchange Task Force

Janée Tyus, Michigan HIT Commissioner, CIE Task Force Co-chair

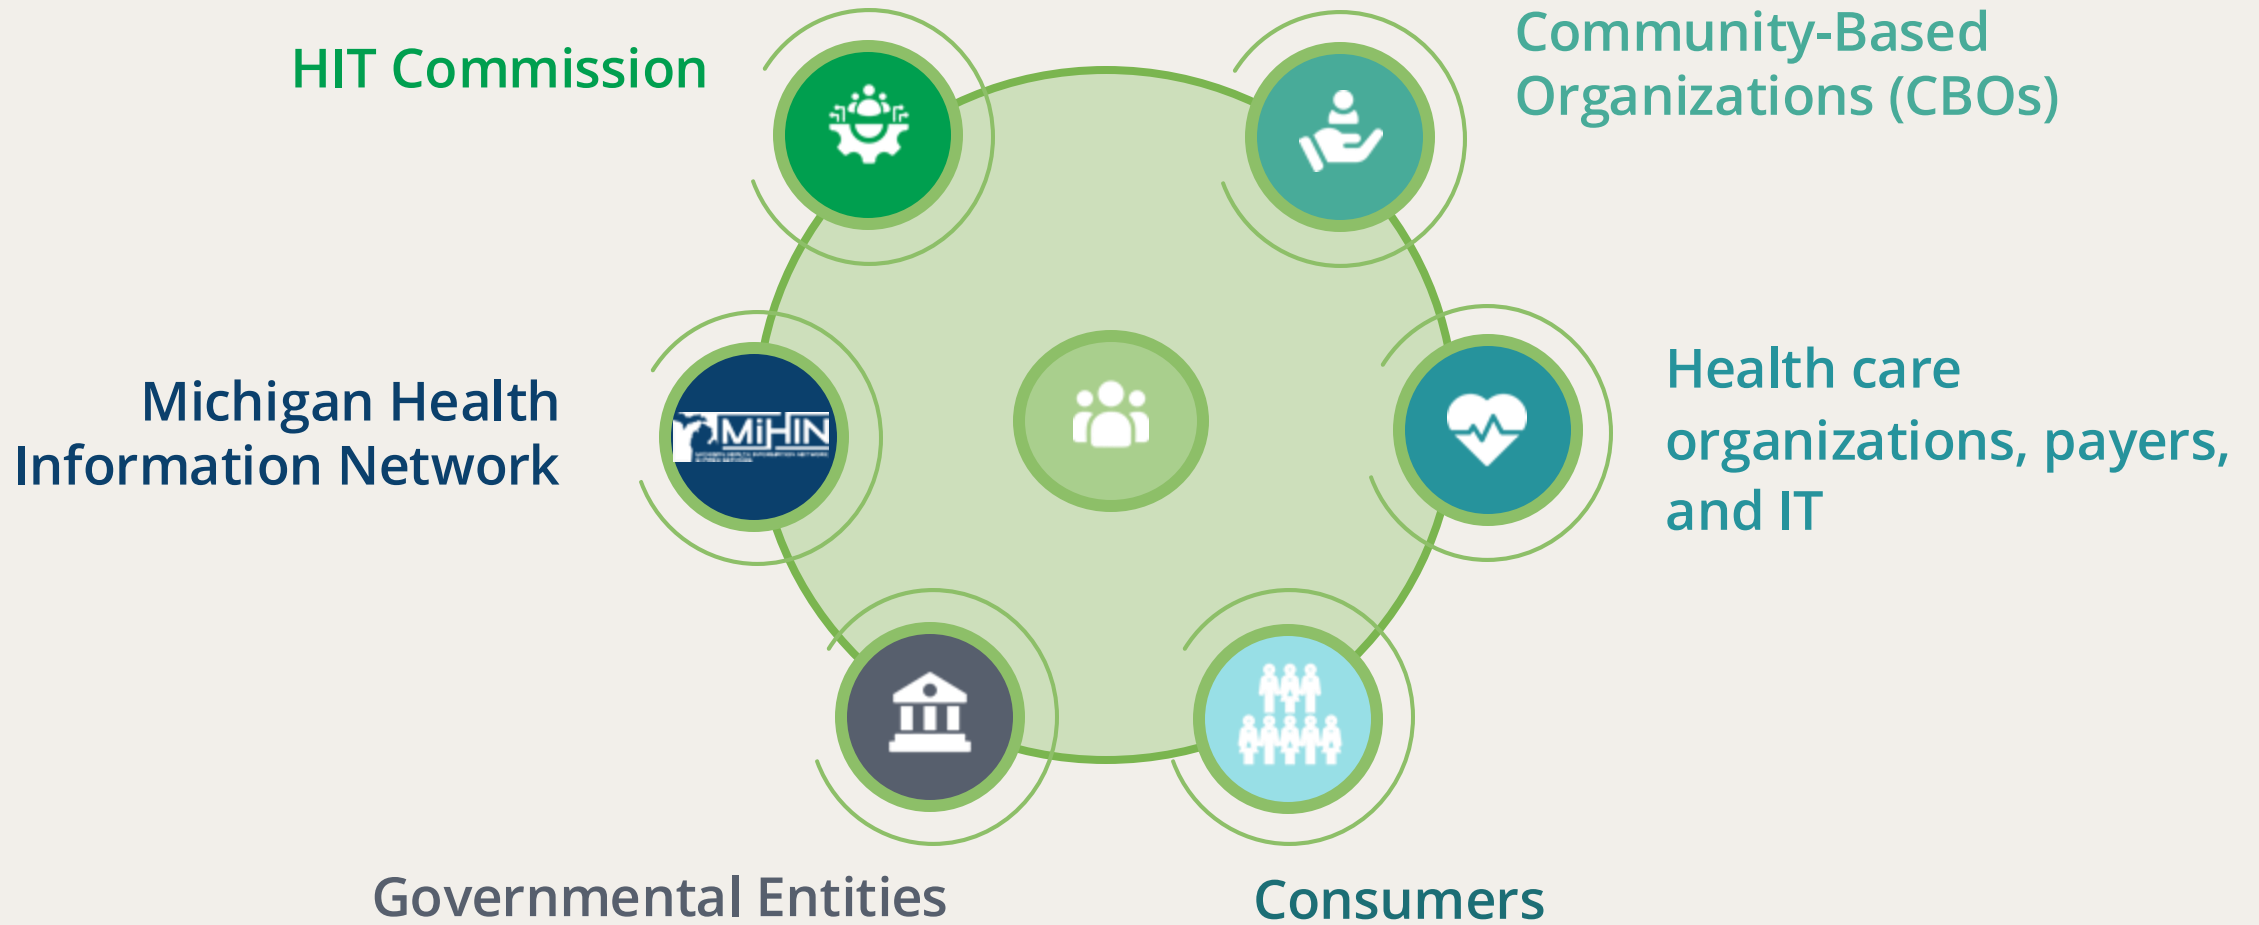

Marissa Ebersole-Wood, CIE Advisory Committee co-chair

Lisa Nicolau, MiHIN

Greg Bloom, Open Referral

Michigan CIE Task Force Membership

Values and Principles

The task force articulated a set of values and principles to guide all activities associated with the collection, exchange, and use of personal data through social care processes.

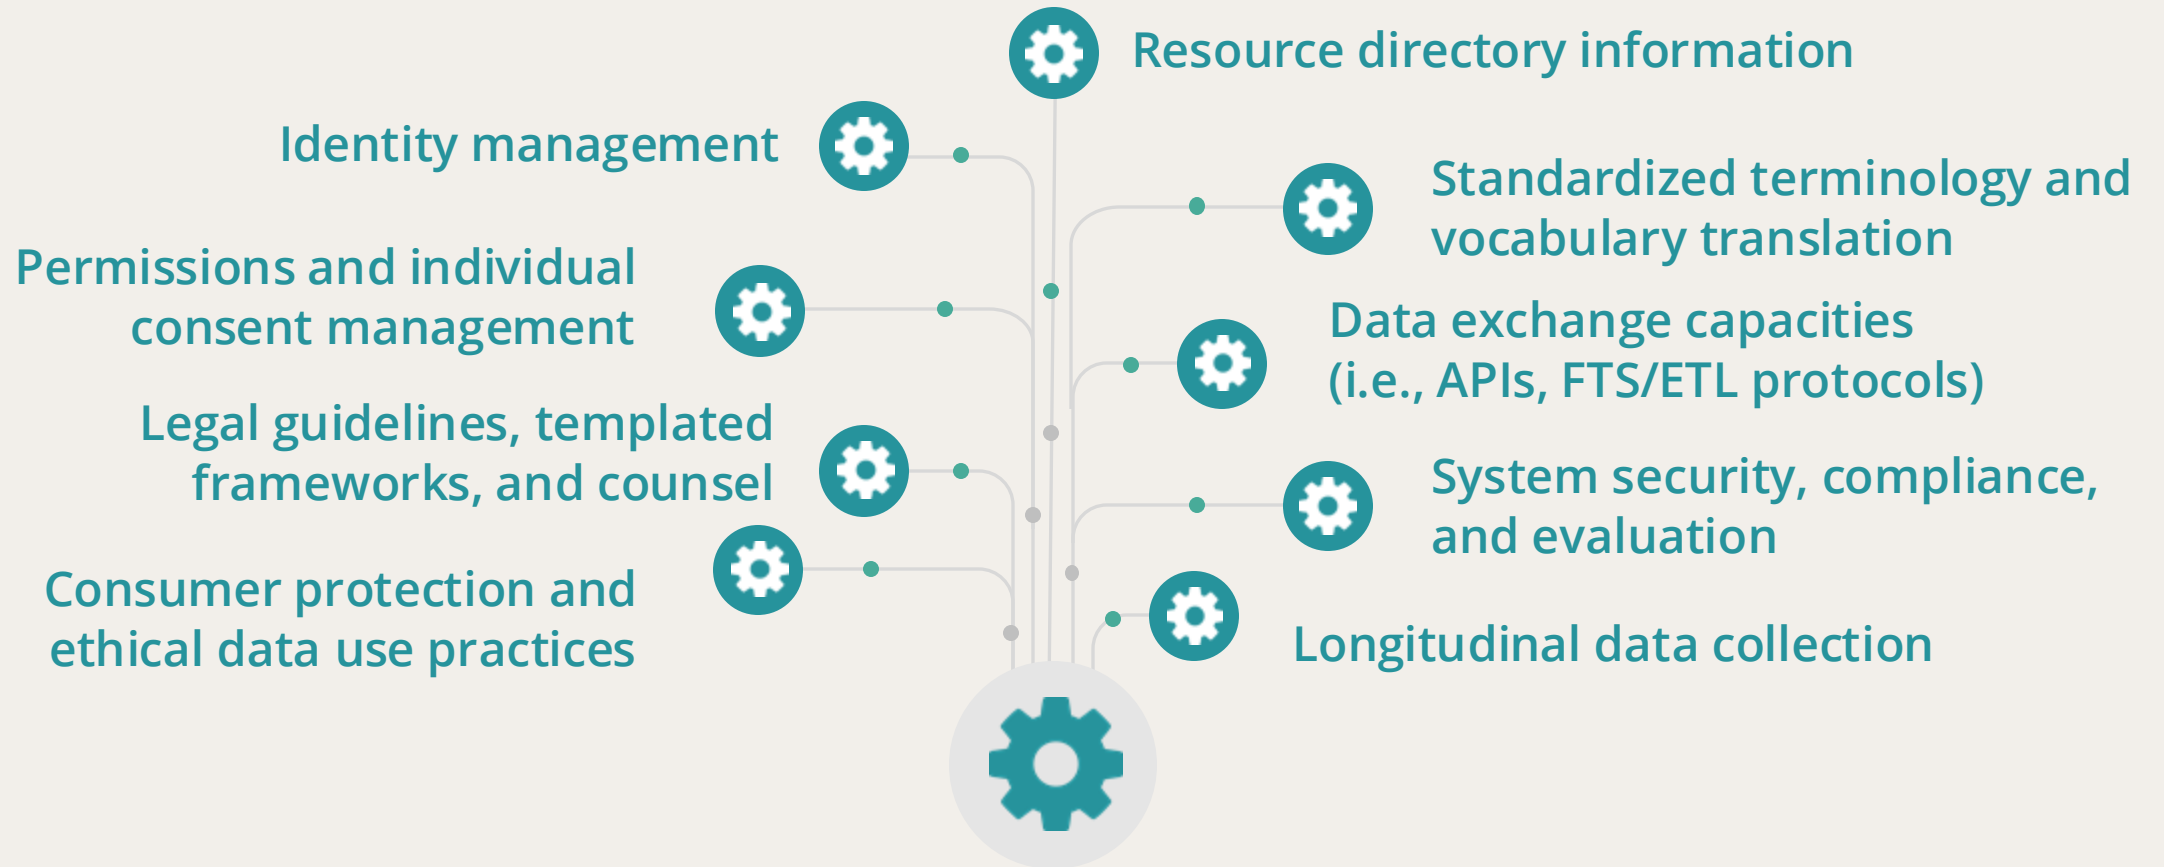

Values

- **Accessibility**
- **Accountability**
- **Equitability**
- **Responsibility**
- **Interconnectedness**

Principles

- **Learn Together**
- **Center Impacted Parties**
- **Build and Maintain Trust**
- **Serve Common Interests**
- **Anticipate, mitigate, reduce, and redress any possible harms**

Core CIE Competencies Identified

Consumer Bill of Rights: Consumers have the right to...

01

Understand and to refuse data collection, sharing, and use

05

Access care without data collection contingencies

02

Clear and accessible processes

06

Bring data about themselves from one provider/organization to another

03

Withdraw from automated process and engage with a human

07

Designate an individual who may act of their behalf

04

Object to unfair or discriminatory use of data

08

Articulate their goals and objectives for health and well-being

Communities should have...

- Established processes through which their members can propose, review, and sanction any uses of data about people within the community
- The right to collectively refuse to be subject to surveillance.
Technology systems operate with a social license that is revocable

CBOs should be able to:

- § Choose the organizations with whom they wish to partner
- § Request corrections to directory information about their services
- § Respond to grievances raised against them and receive a fair hearing
- § Raise grievances about policies or actions that they consider to be inequitable – and propose changes to policies

Governance

01

CIE activities should be conducted by accountably governed bodies that are responsible for acting in the best interests of the people they serve.

02

CIE Governance should formally represent the interests of affected parties, especially those of consumers and service providers, in transparent and inclusive decision-making processes.

03

CIE governance processes should clearly establish use cases and should establish processes for monitoring, compliance, and conflict resolution to ensure equitable outcomes.

04

Local CIE activities should operate as part of a federated network, with representatives establishing baseline policy, standards, core infrastructure and conflict resolution processes.
