Standards-Based Health Data Interoperability and Use of Artificial Intelligence to Advance Care

Rajib Ghosh – CEO, Health Roads

Jason Buckner – CIO, Manifest MedEx

Dan Chavez – Executive Director, SCHIO

Anil Jain, MD, FACP – Chief Innovation Officer, Innovaccer

Wednesday, October 16
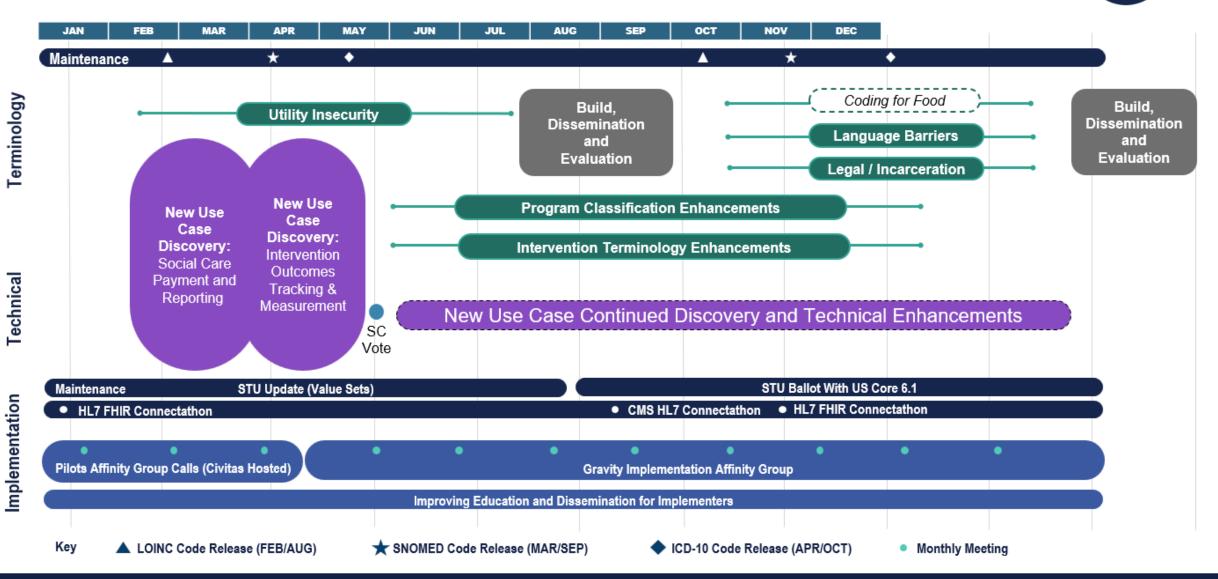

SESSION OBJECTIVES

1. Understand state and local data exchange situations compared to national Data Networks. What does and doesn't work at the regional level compared to the national level?

2. Discuss opportunities and progress made in broader data exchange focusing on HRSN data.

3. Discuss, once this data exchange issue is resolved, how technologies like AI can further the goal of improving care coordination and outcomes.
